

Changing Room Refurbishments

Nationwide

• Details

We have project managed and acted as Quantity Surveyors and CDM Co-ordinators on numerous changing room refurbishments and fit-outs across the country

The schemes have varied in budget from £20,000 to £500,000 per changing room. The projects were often undertaken whilst maintaining a fully operational facility creating the additional challenges of programme (often double shifts overnight), phasing (the inclusion of temporary access arrangement and enabling works), health and safety (working in close proximity to staff and members of the public).

The schemes varied from simple refitting of lights through to complete strip out and replacement of floor and ceiling finishes, lockers, benching, saunas, steam rooms, spa's, air conditioning and lighting.
