Established in 1998, Robinson White Partnership has grown steadily, developing a team and management structure that ensures a close client relationship. As a firm of Chartered Surveyors, we pride ourselves on our professionalism as well as our personal level of service. This ethos has encouraged clients to use us again and again with repeat commissions.

As well as other sectors of the construction industry, we have expertise in servicing the healthcare field. Our widespread experience of refurbishment and extension schemes, working side by side with the care provider to assist in the often difficult task of planning and managing the phasing of the works to ensure continuity of service and minimal disruption to residents, makes RWP the ideal consultant to employ on your new build or refurbishment/extension project.
